Judge James Jackson, who is the senior judge of the supreme court of Georgia, was yesterday tendered the place of chief justice recently made vacant by the resignation of Judge Warner. Judge Jackson accepted the tender from Governor Colquitt, and having resigned his place as associate Judge, he was sworn in as chief justice. This leaves a vacancy now in the office of associate justice, held by Judge Jackson. Judge Jackson, as associate judge, would have held his place for two more years. In resigning that place and taking the position of chief justice, he only holds until the next meeting of the general assembly when the place will be filled by an election by that body.

We have before us two bulky biographies of General Hancock, the most pretentiou being that from the pen of Colonel John W. He has plenty of time to gush, and it is safe to say that he utilizes every opportunity. It is an ideal campaign biography, and it will hereafter be accepted as a model of that species of literature. Colonel Forney has the knack of the true newspaper reporter. He frequently ventures to the point of slopping over, but gracefully escapes white the reader is engaged in holding his breath with both hands. There are other qualities of Colonel Forney's style which resemble those of the average reporter. For instance there is something graphic and entertaining in the desultory eagerness with which he flits from point to point, seizing with avidity upon inconsequential events and dwelling the proposed and the proposed about equally durable, with set of the point of seed hulls, which are said to be very elastic, while the desultory eagerness with which he flits from point to point, seizing with avidity upon inconsequential events and dwelling the proposed about the proper quantity.

The princess of Wales is a picture of modest good taste as she walks the deck of her husband's yacht. She always wears there a plainly made dress of some dark color, with a sailor's hat, or a close soft hat, which is exceedingly becoming to her. Her little daughters are dressed in dark serges or simple cottons, and sailors' hats always crown their long, fair hair.

Why the City Hospital Should be Sup-

Editors Constitution: Every few days, your conditions called upon to chronicle some sad case of destitution, like the one reported in yesterday's ue of THE CONSTITUTION. Many of these cases are not imaginary, but real, Many of these cases are not imaginary, but real, and I have known several similar cases to exist, at least in the fourth ward of the city. The case reported yesterday is that of a negrogirl, 12 or 13 years of age, who contracted a most destructive and loathsome disease—and, who is too lazy and indifferent as to her condition, to observe the ordinary rules of cleanliness and use the remedies offered for her relief.

This is a crying shame, but nevertheless a fact,

But this is not very expensive, but it is often impossible to my one who will take the case and trouble to cases. The writer of the above is to a certain extent The writer of the above is to a certain extent mistaken. We have a city hospital, the doors of which are ever open to the call of distress. It is not yet equal to the demands made upon it, but this is the fault of the people, and not of the ladies in charge of it. We should stand by our hospital.
